3 stars

Who's on it?

Raking eclectic tracks of the past few years from various compilations remixed for your pleasure, Worx is a d&b jazzy redux including cuts from DJs Fon-Kin, Megablast, and Abdullah Ibrahim.

Any Good?

With artists from Japan, South Africa, Germany and more, the album is a mixture of electronic lounge pop, samba tri-hop, jazz and hip hop beats, fitting for virtually any summer occasion. **NA**
